Subject: Applications are invited for a Full-time Tech Lead position at Enveave project

The last date for receiving the application is 31 July 2022 15th August 2022.

Post	Tech Lead (Full time)
Remuneration Range	The selected candidate may be paid a compensation in the range of 12 LPA-18 LPA, depending on their background and experience. Candidates who can avail of a long-term sabbatical from their organisations are also encouraged to apply - for such candidates, efforts to protect their current compensation will be made. The compensation would be benchmarked to similar professional organizations once fund-raising meets expectations and requirements.
About Enveave	Enveave is an environmental project being developed at IIIT Delhi under the supervision of Dr. Pankaj Jalote, and is now on-boarding key team members to support its growth phase. Taking Enveave forward, a start-up project has been launched in IIIT-Delhi with financial support for a small management team for 2 years. To know more about Enveave and the people involved, visit www.enveave.org
Essential Qualifications and Experience	<ol style="list-style-type: none"> 1. You are passionate about building technology solutions to solve grassroots challenges. 2. You should have been working in the software development for some time and have a knack of experimenting with the programming languages, devices and platforms. 3. Candidates with a postgraduate or higher degree and work experience of atleast 2 years will be preferred.
Responsibilities	<p>As the tech lead you will build, manage and lead Enveave's technology platform and product development. This is an entrepreneurial opportunity and you will be expected to be hands-on.</p> <ol style="list-style-type: none"> 1. Lead cross-functional technical teams in the design, product, development and delivery of quality software applications. 2. Develop new user-facing features using MERN stack. Should be proficient with Node.js, TypeScript and React. 3. Write complex, clean and maintainable code to develop scalable user-friendly Front-end applications, services and API. 4. Participate in technical planning & requirements gathering phases including Design, code, test, troubleshoot, and document engineering software applications. 5. Experience working with both SQL and NoSQL databases. 6. Working knowledge of AWS services such as Lambda, EC2, Elastic Load Balancers, Elastic Beanstalk, etc.
Duration	Initially for 2 years (After this, it is envisaged that Enveave will become a professionally run, self-sustaining organisation with multiple revenue streams). Post the duration, the Tech lead based upon their performance will be offered to continue and run the organization.
Application Process	<p>Send your CV and a one-page Cover Letter to: enveave@iiitd.ac.in</p> <p>In your Cover Letter, tell us about your motivation to join Enveave (Why?), your passion about technology and any project details (including any hobby projects)</p> <p>Email Subject: Application for full-time Tech Lead position at Enveave</p> <p>(Shortlisted candidates will be asked to make a presentation on their plans for this start-up-project, and beyond.)</p>
Last date for Application	31 July 2022 15th August 2022
