

**Jawaharlal Nehru University  
Special Centre for Molecular Medicine**

Applications are invited for the following purely temporary posts in the DST-SERB-EEQ Sponsored Project No. Project No. EEQ/2021/000823 Entitled “**Uncovering the novel oncogenic role of Thymine DNA Glycosylase epigenetic function in acute leukemia is a potential therapeutic target for acute leukemia treatment**”

**Junior Research Fellow(One)Rs.31000/- +HRA**

**Essential Qualification**

- Masters degree in Biological Sciences/ Life Sciences / Biotechnology / Zoology / Molecular Medicine with strong academic record. The student qualified NET/GATE will be given preference

**Start Date of Advertisement: 21th July 2022**

**End Date of Advertisement: 16th August 2022**

**Desirable Qualification:**

- Candidates should have research experience in the epigenetic and cancer biology field
- The student with a biology background should have an experience in protein expression and purification, cloning, DNA and RNA isolation, PCR, Western Blotting, Spectroscopy Bioinformatics.
- The candidate should have research experience with handling of laboratory animals.
- In case the performance is not satisfactory the appointment is liable to be terminated at any time without any notice.
- Eligible candidates may apply by sending their complete application to **rec.scommjnu@gmail.com**. The attested copies of the certificates and proof of research experience (if any) are to be **attached with the soft copy of application**. The application should reach at the address given below latest by **16th August 2022**.
- Interview will be conducted online / offline **23rd August 2022**. Your interview will be told by email on **22nd April 2022** to the selected candidates and further details regarding the interview will be notified through email.
- Please note that no TA/DA will be paid for attending the interview for the said positions.

**Dr Vijay P. S. Rawat**

Associate Professor,

Cancer epigenetics and functional genomics laboratory
