National Brain Research Centre (NBRC) is an autonomous institute of Department of Biotechnology, Govt. of India. The Centre has ongoing research programs on basic brain functions and brain-related disorders. Recognized as an Institution of Excellence, NBRC is a specialized Deemed-to-be-University and offers Master's and Doctoral degrees in Neuroscience.

NBRC invites applications for faculty positions from qualified, dynamic and result-oriented scientists to carry out research in advanced areas of neuroscience, and those who have a genuine interest in teaching. Candidates should have a proven record of scientific accomplishment in the form of recent peer-reviewed publications in scientific journals of international repute, and experience as per the requirements of the position. Current research at the Centre encompasses molecular, systems, computational neuroscience, and neuroimaging aspects of basic and translational neurosciences. Candidates with research focus in these and other multidisciplinary areas that the Centre will like to develop such as - system neuroscience (involving non-human primates, rodent and mouse model) and or candidates with expertise in functional activities of the brain in health and diseased condition using multimodal approach (fMRI-EEG). The Centre encourages collaborations and has close ties with many National Research Centres and Universities, and leading hospitals of the region. For more information about the Centre visit the centre website.

The selected candidates will be provided shared laboratory space and adequate start-up funds. However, the faculty is expected to raise extramural grants to build and support their research programs. The faculty is also required to teach and participate in the management of the Centre with responsibilities assigned by the competent authority as per requirements.
