

No. Neph-2022/755

Dated: 2/8/22

Department of Nephrology
Postgraduate Institute of Medical Education and Research
Chandigarh-160012

Online applications are hereby invited for the following posts purely on temporary basis for the project titled 'Indian Chronic Kidney Disease (ICKD) Study: Second Phase' in the Department of Nephrology PGIMER, Chandigarh. The ICKD study is a multicentric, pan India study of patients with chronic kidney disease being followed up at 11 centres across the country for the last six years. This is a one of its kind cohort study funded by the Department of Biotechnology and has received global recognition.

| Position | No of positions | Educational Qualification/eligibility |
|---------------------|-----------------|---|
| Project Coordinator | 1 | Ph.D. in Life Sciences from recognized University/Institute |

Desirable: Experience in handling and coordinating multi-centric studies

Job Profile The post involves providing broad oversight to the project, working closely with the investigators in the day-to-day study conduct as well as providing high-level coordination with the study centres and supervise the centre level study staff. The coordinator will work with the other staff in the project to deliver on the agreed upon outputs. The coordinator will be responsible for managing meetings of all the project related committees, such as the steering committee, the external advisory committee et cetera. The project coordinator will work with the finance and administrative teams to develop progress reports and financial statements.
